Hallelujah, here we are now  
At the same fork in the road  
We don't know why, we can't say how  
We're still carrying this load  
Crashed through anger  
Walked in blindness  
Stormed the boundaries day and night  
If we could just remember kindness  
Would it matter who is right  
Would it matter who is right  
And all I ever wanted was a love that I could say was  
mine  
A heart of gold if only it could last a lifetime  
Hallelujah here we are now  
At the entrance to the caves  
If we stand and face our shadows  
Maybe this love can be saved  
Now I can't wake up in your darkness  
I've got darkness of my own  
But this sacred light between us  
That's enough to guide us home  
That's enough to get us home  
And all I ever wanted was a love that I could say was  
mine  
A heart of gold if only it could last a lifetime  
Sweet love coming back around this time  
Sweet love finally found this heart of mine  
Sweet love opened up my eyes  
Love that I can see forever, baby it's now or never  
Sweet love everything I have with you  
Sweet love tested till it's tried and true  
Sweet love all that we've been through  
Baby after everything you still make me sing  
Hallelujah
