March into hell
Burning
But you can't tell
You're ignorant fools
But you don't care
You think you're fine
Cause you say a prayer

It only works if you try
But I can tell you don't
By the look in your eyes
Where will you go
When you die?
It won't be heaven
Do you know why?

Our smiling faces
Hiding ourselves
We think we're saved
But we're going to hell

You're all guilty
Rotting corpses
Filthy
Self righteous
Can't you see?
I sin
But you can't judge me

Don't you get it?
You're just a bunch of
Hypocrites
You judge
But you don't listen
So you no what?
Just screw it!

Our smiling faces
Hiding ourselves
We think we're saved
But were going to hell

I can't help you
So why bother?
Nothing I can do
I'll still try
But I won't get through
The only thing
That can change things is you

But I know
You won't do it
Because you don't
Think you're a sinner
You are though
We know it
But somehow you don't

You're gonna die
You're gonna burn
You're going to hell
(X4)

Our smiling faces
Hiding ourselves
You think you're saved
But you're going to HELL!
