The rhythm will make your body move
It's gonna keep ya movin'
The rhythm will make your body groove
It's gonna keep ya groovin'

To everybody that came to this party
Forget your troubles
Come and get a little crazy it's what I want
So let the jamming begin

Dancing to the rhythm again and again
But they say that these curves are dangerous
And when I move, everybody's nervous
The pumping of the beat does something that I can't
control

The rhythm will make your body move
It's gonna keep ya movin'
The rhythm will make your body groove
It's gonna keep ya groovin'

Come on, you people, put your hands up in the air
I don't want excuses, so please hurry and just get here
Everybody close, so close that they can't breathe so
very close
You can feel the heart beat. come on, dance with me

The rhythm's gonna take you, is gonna take you
Then you'll see that you're gonna like it
With me, with me, with me, with me, ia, ay, ee, ah

The rhythm will make your body move
It's gonna keep ya movin'
The rhythm will make your body groove
It's gonna keep ya groovin'

Baby, come get closer, just a little closer
Let me taste your lips, I know that they're so sweet
And I want to know if you feel the same about me
Ay, ay, ay, ay, ay, ay, ay

The rhythm will make your body move

It's gonna keep ya movin?
The rhythm will make your body groove
It's gonna keep ya groovin?

My passion's rising, I want you to cool it
Your rhythm's so enticing, for you there's nothing to it
You like getting down in the dark in this room
My heart beats so loud, you can hear the boom, boom

You can dance with me however you want
You can move with me, I'm never gonna stop
I like getting down in the darkness with you
Your heart beats so loud, I can feel your boom, boom,
boom

And the rhythm keeps groovin?
The rhythm keeps movin?

The rhythm will make your body move
It's gonna keep ya movin?
The rhythm will make your body groove
It's gonna keep ya groovin?

I like getting down in the darkness with you
Your heart beats so loud, I can feel your boom, boom,
boom

The rhythm is gonna move you
I know you really like it
With me, with me, with me
You'll really like it
