I hold it in to...
I soar up in...

I'm sorry I did so long to remember it
And so I left to replace the worst
I'm sowing the seeds of life and new memory
Awaiting the brain to repair

There's more to life than this
Destroy all that is keeping you back
Chaotic past, nightly obsessions
Fall back behind the curtains

And everything's getting lighter

One more step in the right direction
And the riddle suddenly gets solved
You completed the mission

Underneath all currents, I'll soothe, I'll nurse
I'll hunt around for the missing elements
I'll fill you up again, to and through your heart of steel
A spear will free (then) overcome the oppressive shade
