The world is undefined
I'm makin' up my mind
But I cannot decide which way to turn now
She was the reason I was blind
And all it took was time for me to realize

She was on my mind but I knew that she had lied
Despite how hard I tried to make it alright
I held her by the hand and stole her from this land
And made it clear that if she was near
I would end her life tonight

I don't know where to go
She's killing me, I don't know
But wherever it is I will find it
And I will make it stop

I don't know where to go
She's killing me, I don't know
But wherever it is I will find it
And I will make it stop

The writing on the walls told me to face them all
Hold myself and then one at a time
Lead them to the end of this world
I'll go back to the start and break her fucking heart
Cause one more slip and I swear that's it
She'll sleep forever

I don't know where to go
She's killing me, I don't know
But wherever it is I will find it
And I will make it stop

I don't know where to go
She's killing me, I don't know
But wherever it is I will find it
And I will make it stop
