"Never Grow Apart"

There's been something I've been meaning to tell you
And make you understand what you make me feel
You electrify my life and make me realize
All I've wanted, all I've needed was you
And now I'm standing here wishing that you'd find me

Where ever you are I know you can't be far
"Forever," you said, you'd be in my arms
Inside of my heart you were there from the start
By your side in your life
We'll never grow apart

And I said to you that I don't know what to do
But you always told me to never leave you
And everytime I hold you, every second I'm in love
This is forever that I promise
I will stay true to you

Where ever you are I know you can't be far
"Forever," you said, you'd be in my arms
Inside of my heart you were there from the start
By your side in your life
We'll never grow apart

Where ever you are I know you can't be far
"Forever," you said, you'd be in my arms
Inside of my heart you were there from the start
By your side in your life
We'll never grow apart
