You're lost  
Cast away  
This is your changeless war  
Bringer of death, misery

I'm gonna...

Blacken your eyes and devour your soul  
You called my name and now I'm in control

Kneel down, it is time  
Let me lead you astray  
Give in to me, let it in

I tell you...

To drink my blood as I open my veins  
Dismember this body and burn the remains

Why try to find love  
Stay away. Reign forever  
Weak, sick, freak  
You'll never see  
Be free  
Never

I am Legion

At last, we are one  
Bound by the truth of blood  
Open your eyes  
It is done

I can feel...

Your spirit twisting and turning inside  
My name is Legion, we scorn the divine

Now grow and convey  
Become my chosen One  
Burning the earth, unleash hell

I'm gonna...

Lead the forsaken to their fall from grace  
Extinguishing all light with one black embrace

I am Legion

I will broaden your senses, make you walk on air  
But first I need you to witness the stream of your  
thoughts  
And identify the deflection within  
In order to see the abstraction of presence from all  
existence  
There will be no image of this in your memory  
But you will consider your own death  
Then you will be conceived

I am Legion

I am Legion

I am Legion

I'm...

Perdition

I am Legion

I am Legion

I am Legion

I'm...

Perdition
