Saw you sitting in your bedroom  
Wishing that I could be there too  
Lean back and close your eyes  
Those tears will soon be dry

I will appear for you  
I will appear for you  
I will appear for you

Your notebook tells me I'm your favourite  
My picture spread out on your carpet  
And one above your bed  
For late night duets

I will appear for you  
I will appear for you  
I will appear for you

Did you know I got your card?  
The construction paper heart  
With an arrow through the middle  
Of our two initials

I will appear for you  
I will appear for you  
I will appear for you
