Never said that I was perfect
All the crazy things I do
All the loving we made
I wouldn't trade, girl I love you

But falling in love was not the plan
So honey try to understand
The only thing I can do
Is promise to you, that I won't be true

Don't ask me to be Faithful
'Cos I've tried so many times
I don't think that I am able
All I am is what I lay out on the table
Don't ask me, don't ask me to be Faithful

You know I hate to lie
I don't have a reason why
To hurt you deliberately
Why can't you see, the others
They don't mean a thing to me

Don't ask me to be Faithful
'Cos I've tried so many times
I don't think that I am able
All I am is what I lay out on the table
Don't ask me, don't ask me to be Faithful

You want the man I'll never be
I'll be yours unfaithfully
I know in time that when you cry you'll realise
My love is not a crime

Don't ask me to be Faithful
'Cos I've tried so many times
I don't think that I am able
All I am is what I lay out on the table
Don't ask me, don't ask me
Don't ask me to be Faithful
