Throttle wide open and I'm gripping the bars
Devil wind at my back flying under the stars
Look in your mirror, and what do you see?
Well, it's a gear-mashing, rod-smashing destiny
Motor kitten, baby, hold on tight
I said, faster faster, no one sleepin' tonight
Boom, boom
Motor daddy, motor daddy, motor daddy
Boom, boom

Well this road is blood from end to end
The Pacific Ghost it don't pretend
My carbs sucking the edge of time
And roaring full bore, man, I'm over the line
Motor kitten, better hold on tight
I said faster faster, no one sleepin' tonight

Boom, boom
Motor daddy, motor daddy, motor daddy
Another one down and a million to go
But I don't care much cause it's all that I know
A ghost rider straddling a death machine
And I'm riding all night in that one eye gleam

Boom, boom
Motor daddy, motor daddy, motor daddy
I said Motor kitten, I said hold on tight
Faster, faster, no one sleepin' tonight
One eye open, the other closed
I don't know nothin' but I've been told
I said, boom, boom
Motor daddy, motor daddy, motor daddy
Boom, boom, blastin'
Boom, boom, blastin'
Boom, boom
