[Hook]

Just put it in motion, body smoother than lotion
Now take a sip of the potion
I got an ocean, that you get as the ocean
She's an extraordinary beach,
It's not an option, she cook me breakfast topless
Somebody stop it
She serve a player with all the...
She's an extraordinary beach,
She's a superstar
Extraordinary beach,
She's a superstar
She's an extraordinary beach,

I'm on my too cool with Oprah
Best friend a designer
She keep a 5 o clock shadow on her vagina
She rule for the lakers, cause she so used to winning
And know how to live a little but still bout her bizness
I was high when I first met her swag, I must have been tripping
I most overlooked her, didn't know what I was missing
I went to New York to kick it, she bought her own ticket
I like a girl that know what she want then go and get it
Told her let's do some shopping, I'm thinking bags and shoes
She so extraordinary, she went straight for the Chius
We up in... cartier, se so far from basing
Got back to the crib, she snuck and bought me a bracelet

Extraordinary beach,

She's a superstar
She's an extraordinary beach,

Not to sound cliché you wanna bring her to mama
She work from cold side 6 I'm talking heat versus
thunder
Her eyes so hazy, her ditto crazy
I hol it till I know, usually it's all maybe
She in my power circle, cause she powerful
She come to meetings with me, I watch her take control
Yeah gwap heavy, she got them beakers go
You had them 2 together, it's called unstoppable
You bring them girls you really feel into them holiday
dinner
Jazzy pulled me to the side said, boy you got you a
winner
We had a background check, we call it hoe facts
That way you'll never ever have to buy a low jack, to
that
