[Chorus]

I know I've hurt you
And you don't wanna see me
Baby I fucked up
And this could think
Shining ain't easy
But I'm still thinking about your body
Thinking about your body
I miss kissing on your body
Touching on your body
But I'm still thinking about your body
Thinking about your body
Shawty, I mean it
Hooked like crack, still thinking bout your body
Got me
Hooked like crack, still thinking bout your body
Can't go back, still thinking bout your body
Thinking bout your body, thinking bout your body

Never took off your coup
Always put me in the mood
You really did it for me
Thought I was the one for you
You know I make it do what it do
When we did what we did
And certain shit, that get a nigga rocks
All blew my socks off, with the perky ticks
You my perfect bitch
You my, you my perfect bitch
Turn me on just certain shit
Drop it low know how to work your hips
Just killing these hoes in rehearsing shit
Never been the one to fall
Now my back's up against the ropes
I still want you back,
Just thought that I'd let you know

[Chorus]

I know I've hurt you
And you don't wanna see me
Baby I fucked up
And this could think

Shining ain't easy
But I'm still thinking about your body
Thinking about your body
I miss kissing on your body
Touching on your body
But I'm still thinking about your body
Thinking about your body
Shawty, I mean it
Hooked like crack, still thinking bout your body
Got me
Hooked like crack, still thinking bout your body
Can't go back, still thinking bout your body
Thinking bout your body, thinking bout your body

Up all night on the Vegas strip
Lake tahoe on the skis
All the Miami nights, 5th avenue shopping sprees
These memories' all I got
But the picture is starting to fade
This money is all I got
Without you just ain't the same
Never meant to cause you pain
Never meant to bring the rain
Now it's my turn to hurt
The confession of a flirt
Can't think of the perfect lie
Can't buy you the perfect gift
So I'ma give you the perfect truth
Damn I really miss my bitch!

[Chorus]
I know I've hurt you
And you don't wanna see me
Baby I fucked up
And this could think
Shining ain't easy
But I'm still thinking about your body
Thinking about your body
I miss kissing on your body
Touching on your body
But I'm still thinking about your body
Thinking about your body
Shawty, I mean it
Hooked like crack, still thinking bout your body
Got me
Hooked like crack, still thinking bout your body
Can't go back, still thinking bout your body
Thinking bout your body, thinking bout your body.
