somewhere unseen and under the covers deep  
the edge of a cliff  
a burning circle  
a lover's leap  
an unmade bed  
the two of us dying silently  
voices that barely exist and crying violently  
speaking in unknown tongue  
we listen oddly  
watching you tremble  
my needs are disembodied  
it's shocking  
the way you make me feel is my sovereignty  
figments of my imagination and it's poverty  
a double edged sword that chooses what cold desire  
well acquainted with pain  
I want to hold your fire  
unfinished artwork  
you're perfect  
my mouth hurts  
aggravated and jealous  
I navigate the outskirts  
stresses  
second guesses are a fact of life  
sometimes we go to the alter for a sacrifice  
telling each other what we want to hear  
ignore the rest  
then again maybe we should never meet  
it's for the best

let's never meet and regret a past endeavour  
what we have is rare indeed and guaranteed to last  
forever  
we'll always wonder but the truth is irrefutable  
the way it is now is so painful and beautiful

baby there's a place that we can go that's behind doors  
a place where you can shelter my body with yours  
sorry for so long and wanting to be sorrier  
young guns sleep lest the unsung warrior  
final night erases history

words that nulify  
infidelity and the meoldy of the lullaby  
jealousy  
exile  
handcuffed and blindfolded  
reckless  
one thousand kisses is a necklace  
x's and o's  
bad habits rose to fashion  
whispers that turn into screams in the throws of  
passion  
blood in my viens and part of me is dead still  
my muscles are tired from running on this treadmill  
the sun don't shine  
the sky is a sleepy storm  
in the room under a blanket  
keep me warm  
I'd cut myself in half  
if it made sense to  
I run from myself and trust past against you

let's never meet and regret a past endeavour  
what we have is rare indeed and guaranteed to last  
forever  
we'll always wonder but the truth is irrefutable  
the way it is now is so painful and beautiful  
and as love desires  
we wait until the very end  
you're a dream I had  
an imaginary friend  
the dangerous angel  
kisses denied me  
but somehow I'm awake and your breath is inside me  
nowhere to live  
I'm much stronger than before  
still though I don't want to be strong anymore  
preyed upon and followed  
I move to survive  
she hunts in the fall  
once and for all prove you're alive  
love stays away from me  
I'm out of breath generally  
damned if I do and I face the death penalty  
the walls may come down but the flames climb  
maybe if we both let go at the same time  
if only just once we could withdraw in private  
hurricanes will come but maybe we'll survive it  
if nothing kills us now then surely something later  
would  
let's never meet it's probably for the greater good
