Trust me, baby  
I can find the rainbow's end  
I can fly there  
I can fly on  
With you in my arms

Watch me, baby  
I can catch the shooting stars  
I can go on  
I can go on  
With you forever

Fly high  
Sky high

I can even  
Take you to heaven

Fly high  
Sky high

Cos you are my angel

Don't you know, my girl, it is your love  
Your love has given me wings to fly

With your smiles and kisses  
I know how to try

I want you to know that  
My love will always be true

You are my angel
