Counted down the days to ring you  
On your birthday  
I just wanted at least to wish you  
Happy Birthday

My dearest friend  
You always taught me  
(To stand tall)  
(To believe in love)  
Thats how I made it  
These days  
(One day at a time)  
(Cause)

You always said,

Its all right  
Dont lose hope!

Its never too late.  
Reach for your dream.

Youre all right!  
Way to go!

You even showed me  
Winning means nothing  
If you had to hurt someone  
In the process

Thats why now I am  
Not afraid to lose  
All because of you

And thats why  
I wanted to thank you  
On your birthday
