"My Infinite Love"

Visit "[My Infinite Love](#)" on MotoLyrics.com

When you see a shooting star in the night
When you hear the warm wind whisper through the
pines
I want you to know

It'll be me, and my infinite love for you
It's just like I promised you, under heaven above
It will live on, long after we kiss goodbye
Forever by your side
My infinite love

When you think someone is callin' out your name
When you feel that kind of feelin' you can't explain
Now you will know

It'll be me, and my infinite love for you
It's just like I promised you, under heaven above
It will live on, long after we kiss goodbye
Forever by your side
My infinite love

I want you to know

It'll be me, and my infinite love for you
It's just like I promised you, under heaven above
It will live on, long after we kiss goodbye
Forever by your side
My infinite love

My infinite love

My infinite love
