They're wrong, can't you see?
We're perfect you and me
And we will make them pay
Cause that's the only way

The love we have is real
The feelings that we feel
Every time we meet
The earth is by our feet

It's coming your way
We've got it all
You better not stay
Cause then you will fall

It's like an earthquake
When we get together
Earthquake
Tonight

It's like an earthquake
We will stay forever
Earthquake
Tonight

Just run if you can
Cause this is my man
And if you ever doubt
I guess I have to shout

Still you say we're lost
So you will pay the cost
Let's see what we can make
We're gonna make you shake.

It's coming your way
We've got it all
You better not stay
Cause then you will fall

It's like an earthquake

When we get together
Earthquake
Tonight

It's like an earthquake
We will stay forever
Earthquake
Tonight

It shakes you
Oh we are hot like fire
It breaks you
Can you feel us moving?

It's like an earthquake
When we get together
Earthquake
Tonight

It's like an earthquake
We will stay forever
Earthquake
Tonight
