I'm working full time baby
I know I'm gonna make you satisfied
So just come on, get ready
Cause I know I'll make you fly

What I give to you, is a ticket straight to heaven
You won't believe it's true, 'til you find yourself
Just sitting 'mong the angels with a happy smile

I'll make you come, I'll make you come
I have a magical tongue
I'll make you come, I'll make you come
Movin' on and on
I'll make you come, I'll make you come
I'll make you come 'til you're gone
Gonna give it to you on and on and on

I'm working full time baby
Won't take a no or maybe
I'll give you more than glory
I will bring it to you on and on and on

I'll give your soul a journey
Just give it up and give yourself away
I'm gonna ease that burnin'
You'll be one big smile for days

You ain't seen it yet, but I know you're gonna like it
You won't believe it's true, 'til you find yourself
Just sitting 'mong the angels with a happy smile

I'll make you come, I'll make you come
I have a magical tongue
I'll make you come, I'll make you come
Movin' on and on
I'll make you come, I'll make you come
I'll make you come 'til you're gone
Gonna give it to you on and on and on

I'll make you come, I'll make you come
Oh yeah

I'll make you come, I'll make you come
Movin' on and on
I'll make you come, I'll make you come
Oh no, no
Gonna give it to you on and on and on

No one told you that the real thing
Are the strangest feelings
Somewhere deep inside
Let them out to see the sunshine
And your life will turn you
Into one big smile

Make you come, Make you come
I have a magical tongue
Make you come, Make you come
Oh yeah
Make you come, make you come
I'll make you come 'til you're gone
Gonna give it to you on and on and on

I'll make you come, I'll make you come
I have a magical tongue
I'll make you come, I'll make you come
Movin' on and on
I'll make you come, I'll make you come
I'll make you come 'til you're gone
Gonna give it to you on and on and on
