As I look back at all these years  
That I pushed you away  
Neglected you when you were always on my side  
Yea you were always on my side  
And now that I am getting older it's getting closer  
And I know that I need to change  
And I can't wait for tomorrow  
Cause that's when regret takes place

And I've been thinking of ways to get myself  
Out of this daily routine that's eating at me  
And it's easier said than done  
And I swear that this time I'll get out of this runt  
For the first time I'm doing this right

I'm done pushing you to the side  
When I know you re the one  
That helped me through all my stupid mistakes  
Tell me why I always do this to myself

And all the while  
I sat here and thought  
That my life is just going to hell without you  
And it's coming around  
Yea this feeling of needing you here right beside me  
Oh I wasted my time sitting here  
Wishing for something better  
And I just realized that it's been in front of my face this  
time

I'm done pushing you to the side  
When I know you re the one  
That helped me through all my stupid mistakes  
Tell me why I always do this to myself

And all the while I sat here and thought  
That my life is just going to hell without you  
And I just realized I just realized that it's right in front  
of me

I'm done pushing you to the side  
When I know you re the one

That helped me through all my stupid mistakes  
Tell me why I always do this to myself
