Take your things please leave me you better do it soon  
Something gets to me over and over again  
I don't mind if it is your day that I spoil  
Caffeine addiction it feels so good

No more love yous  
No more broken bones

Take your things please leave me you better do it soon  
Something gets to me over and over again  
I don't mind if it was your day that I spoilt  
Cocaine addiction it felt so good

No more love yous  
No more broken bones  
Heroin just loves her  
Heroin just loves her  
I don't wanna love you, love you
