Well hello is this thing on?  
Is anybody listening?  
A brand new day has begun

The first thing that I want do  
Make sure that you feel it too  
So I'm not the only one

C'mon and lift me up it's a brand new day  
Open up a little happiness today  
So I can be someone new (so I can be someone new)  
C'mon and lift me up to a better way  
Open up a smile on another face  
So I can feel something new

Open up, open up some happiness  
Open up, open up some happiness  
Open up, open up some happiness  
Open up, open up some happiness

Ahem ahem  
Let me clear my throat  
So you can hear clearly every word spoke  
Today I woke feeling lovely  
Happiness overflowin' knowin' somebody loves me  
Just think yesterday I was down and out  
Now there's not a single thing for me to frown about  
And the same thing can happen to you  
Smiling so hard my mouth look like a capital U

I want the sun to shine  
All the time  
Is that too much to ask  
Oh, I want to have some fun  
I want all my friends to come  
'Cause it's now or never  
Learn the words and sing together  
C'mon and lift me up it's a brand new day  
Open up a little happiness today  
So I can be someone new (so I can be someone new)  
C'mon and lift me up to a better way  
Open up a smile on another face

So I can feel something new

Your heart deserves your trust  
A choice made by all of us  
The sun will come back tomorrow  
There's a message in the bottle  
So come on I'll meet you there  
There's enough sunshine to share  
As long as you know  
The bridge between us is a rainbow

C'mon and lift me up it's a brand new day  
Open up a little happiness today  
So I can be someone new (so I can feel something new)  
C'mon and lift me up to a better way  
Open up a smile on another face  
So I can feel something new

Open up, open up, open happiness  
Open up, open up some happiness  
Open up, open up, open happiness  
Open up, open up some happiness  
Open up, open up, open happiness  
Open up, open up, some happiness  
Open up, open up, open happiness  
Open up, open up, open happiness  
Open up, open up, open happiness  
Open up, open up, open happiness  
Open up, open up, open happiness  
Open up, open up, open happiness  
Open up, open up, open happiness  
Yeah
