Black Wind is blowing
Through me now
And I'm still falling
And I try
To keep my head high
But it burns now
Well I fire
?

Black wind's blowing
Won't you fill my cells and take me home
I keep scratching all of you so far from our homes
I will find some sort of?

There?
And he's hiding in my window
Save me for another day
Hidden on the ground would you wanna? don't know
Wash and blow me all away
All the way takes me home

Black wind's blowing
Fill my cells and take me home
I keep scratching the tissue?

And I try now
To hold up
Black Wind is falling

There?
And he's hiding in my windows
Hold me for another day
?
And he's hiding in my windows
Holde me for another day
