Did I mention I didn't sleep last night?
It was just a whisper close away

Last night, last night
Just a whisper, close away
Did I mention last night, last night?
I'm just a whisper close away

Ahhhhh...

In my dreams last night...
Just a whisper, close away
Away, away, away

Ahhhhhh...

In my dream last night, last night
It was just a whisper, close away
It was just a whisper, close away

Ahhhhhh...

...Close away...

Just a whisper close away...

...Last night...
...Did I mention my sleep last night? ...
...Just a whisper close away...
