"Step Out For A While"

Visit "[Step Out For A While](#)" on MotoLyrics.com

Mmmmmm,
It's Right about time
You better pick your poisons right
Take a little walk with me now
Take a little break from thinking all the time
Cause I need a fever darling
To make it on top

To put a little smile...
To give me back the child
Sometimes we all need to unlock
Cause I need a fever darling

Don't think that's all
Just close your eyes
Cause everybody needs to step out for a while

Well it's late, In the night
You're swimming as a disco dancing all the time?
Give me just one more chance to raise a hand Lala
laaaaAaaaAaaa
Step out for a while
Sometimes we all need to get out, frome here

Don't think that's all
Just close your eyes
Cause everybody needs step out for a while
