what happens when fuck you,  
i won't do what you tell me to  
means that i will still fuck you  
even when you tell me not to?  
10,000 million boys screaming for their sisters and  
their mothers  
all reaching for their sisters  
they all want to fuck their moters

he comes in my bedroom around corners  
of moonlight;  
unexpected, he catches me  
in his big arms an ancient music at the edge of my  
mouth  
he looks at me and warns:

the second you touched it it started to die inside  
when you said "show me your tits" we were  
wishing you died  
extending into flesh and saring  
this fake revolution resolution into PACK OF WOLVES.

we're all  
waiting for you  
standing  
around your grave
