I don't care  
If you never call again  
I don't care  
If you leave me in my den  
And I don't feel  
That love for you no more  
And I don't need  
You 'round me anymore

Don't look back  
On your way right through that door  
Don't look back  
Like you never did before  
Just go on  
Go on break another heart  
Just go on  
Find a new love, a new start

But I cry out in the night  
When I think of you and I and the times  
I spent with making me believe  
No one could steal your love away  
I never thought that you could be the thief

I don't feel  
That sweet love for you no more  
And I don't feel  
My own heart that you've torn  
Leave my world  
Leave it broken at my feet  
Leave my world  
Leave the dreams you don't need

But the saddest part of all  
Is never knowing if you ever wonder why  
The hearts you left all have to die  
Guess you'll never ever know  
And you'll never ever love without a lie

No please go on  
Cause I know you don't think twice  
Please move on

With your heart cold as ice  
Don't look back  
Though I'm still waiting here  
Don't look back  
Though you'll ever be my dear
