I wake at dusk to go alone
without a light
to the unknown
i want this night inside of me
i want to feel
i want this speeding
i want that speeding

my blood beats black tonight!

no need for comfort
no need for light
i am hunting for secrets tonight
Eat the sorrow lick the spark
u h oh my blood beats dark

And here it comes
it comes for me
i want to run
i want to scream
Get in my car with both eyes closed
full pedal down
And i am speeding!

my blood beats black tonight!

no need for comfort
no need for light
iam hunting down demons tonight
Eat the terror lick the spark
uh oh my blood beats dark
