You better watch out! Little baby
They're talking all over town
You better watch out! Little honey
I know you've been messing around

Well Jonas said he saw you walking 'round holding
hands with some other man
Yeah and Judy warned me just the other day, said your
playing me like a fool
But what's a boy to do?
I'm still in love with you
A thousand lovers behind my back
It seems your true love is what I lack

You better watch out! Little baby
They're talking all over town
You better watch out! Little honey
I know you've been messing around

So I hopped on the train to see you
I had to find out the truth for myself
But when I looked into your eyes I knew that they were
lies
I'm the only one in your heart
Oh what was I to do?
If I found this all to be true
But I shoulda know better my dear
Than to believe everything I hear

They better watch out! Little baby
For talking all over town
They better watch out! Little honey
For spreading awful rumors around
