In this lonely night
I am here again
Waiting for you
Wishing you were here

What are you searchin' for?
Why did you leave it all behind?
I can't sleep at night
When the sky turns black

This empty place is darker and scary without you
You leave me, girl
I'm shaking here alone and cold

-chorus-
(Oooh)
Pretty eyes please don't forget me
Remember me once in a while
Don't forget my arms around you
In the backseat of my car

You broke my heart in pieces
I'm still here for you
My arms are still wide open, girl
If you need a place to hide

Memories coming to me
Like the first day of my life
Breakfast in downtown
You and me at the gallery

The love we shared was true, so tell me what went
wrong
You took away every piece of my heart

(Chorus)

So you are thinkin' it's over
And you ran away
You left me here
The tears are still falling
Flying south to the land of silver

I see the full moon in the sky
In this black rain I just can't stop!

This empty place is darker and scary without you
You leave me, girl
I'm shaking here alone and cold

(Chorus)

Dry my tears under the rain!
