On the darkest night
In the woods
The king's spirit appeared
He revealed what I already know
King's brother betrayed

By my sword he will pay for his sins
I will take back the crown
You were trying to send me away
I'm back to spill your blood

Lies and crimes
You took over the throne
And seduced the queen
Bring the chariots to this battlefield
To take his bloody corpse away

The light of our people will shine if he dies
My uncle's dark ages are over from now
In the name of my father
In the name of my people
King's brother must die
Vultures fly over him

2, 3, 4!

The light of our people will shine if he dies
My uncle's dark ages are over from now
In the name of my father
In the name of my people

The revenge is mine!
