I Wish I Were a Scientist

I wish I were a scientist
But I never did well in school
I'd like to talk for hours about
The problems with time travel

I wish I were a scientist
But I never did well in school
If you are a scientist
Please don't think that I'm a fool

Methylchloroisothiazolinone

Hydroxypropyltrimonium

I wish I were a scientist
But I never did well in school
I'd like to know all the animals
That exist in the world

I wish I were a scientist
But I never did well I school
I find it really fascinating
I think science is really cool
