Let's burn this place to cinders
Let's burn it to the ground
No sign of it's existence
No sign it ever was

With pleasure we'll light the match
And then we'll stand in awe as
It all is blown away
And the new life from it's demise

Reborn a clean slate at last
And we will never go back to the way it was
How long have we waited for?
Finally at a head
'Cause there's nothing more to be said

Now! Let's burn it all down
The parliament hill to the government halls
Will be the first to fall!
Greed and desire was the fuel for this fire
And now they've lost it all!

Next set ablaze to your church
For all the lies and the pain and the hurt
You all claim to be heaven sent
