VERSE:

Roll up in the club looking good for tonight
I can already tell there's gonna be a bitch fight
When they dance together up on the floor
And they pour their drinks more and more

CHORUS:

I'm in the VIP
You know you wish that you were me
But dream big babe cause it won't happen
They point to me and yell she's a ten

VERSE:

In the back room bitch VIP
Now everybody wants to get with me
Everybody stares in our direction
Cause they all wish that they had our connections

CHORUS:

I'm in the VIP
You know you wish that you were me
But dream big babe cause it won't happen
They point to me and yell she's a ten

BRIDGE:

Wow look at that fat bitch over there!
I know she's trying to look so hot!
Yeah, She keeps giving us dirty looks
She's definitely jealous
Yeah, that we're famous and she's not
Ha ha exactly!
Well it's not our fault we're hot and we get VIP!

CHORUS x2:

I'm in the VIP
You know you wish that you were me
But dream big babe cause it won't happen
They point to me and yell she's a ten
