We made a pact to take the time  
To get to know each other deep inside  
No rushing in to cross the line  
It may be a little old fashioned but it feels so right

Been holding back for so long  
What feels so right can't be wrong  
Baby, you can read it in my eyes  
Let's write the story of our lives tonight

Don't be afraid, turn down the light  
Baby, move in closer, it's gonna be alright  
This is the moment we'll remember all our lives  
Forever begins tonight

I know you fear those butterflies  
But let me tell you a secret, so am I  
But it's okay, baby, it's alright  
Just follow our hearts now what we feel inside, yeah

Been holding back for so long  
What feels so right can't be wrong  
Baby, you can read it in my eyes  
Let's write the story of our lives tonight

Don't be afraid, turn down the light  
Baby, move in closer, it's gonna be alright  
This is the moment we'll remember all our lives  
Forever begins tonight

And I know we will be one  
When we see the morning sun

Don't be afraid, turn down the light  
Baby, move in closer, it's gonna be alright  
This is the moment we'll remember all our lives  
Forever begins tonight

Don't be afraid
