[Verse One]

Look...

Baby I see you and I'm noticing you notice me  
We at the same spot so this is the place to be  
I'm feeling you baby so lets see bout our chemistry  
You got a look on your face like baby come to me  
You vibrant and you smiling so nigga don't want to  
leave  
Cuz I'm in a position that every bra wanna be  
If you bought it at the end of the night come with me  
Aint trying to get in your pants, we gone get someting  
to eat  
Look lil mama, your mind is what I'm after  
So I gotta ask ya  
Whacha love, whacha hate  
Oooh I gotta have ya  
Cuz you speaking the right words that I want to hear  
Get a lil closer, let me whisper in your ear  
I got a love jone  
For your body and your skin tone  
Got what it takes to make grown men moan  
We almost to the end zone  
You grab me and gladly, I'm lil daddy and we can get it  
on

[Chorus]

As soon as I get home she like...  
And when I whisper in her ear she like...  
And when I lay her on the bed she like...  
And when I hit it all night she like...

[Verse Two]

Look here love... come holla at a playa  
And don't be scared cuz your girl say I'm a trouble

She said I don't know y'all niggaz in the back trippin  
Well if it's alright with you, we can get the dippin  
Not to be rude and don't get it twisted  
Cuz I ain't noting like the other dudes in here

I just wanna stop screaming stuff in your ear  
Love, come and talk with me  
Tell me what you bout  
Enough of that small talk  
Cuz baby we can ooowy

Makin hot love

Bay we'd be locked up, just like some pitbulls  
Satisfaction guaranteed cuz I'm this good  
I just wanna please you  
Hug and squeeze you  
Don't move for nothing, I got everything you need boo
