Highlights, clear view on the vista -  
Stars so close you can reach out and kiss one.  
Bright waves roll easy and still,  
Sparklin' and deep,  
Rude and sweet.  
Dream what you like, but you dare not sleep  
The lights on the riverbank, they just much reach.  
How much lessons did they teach  
for the bounty that they seek?  
Angels over each and each  
As the heavens just increase.  
And the mountains surrender,  
Final call,  
The one on the only, the all for all.  
All gone and it goes on and on,  
And when it's done on-ing it's just on some more.  
Majestic and lonely, magnetic, raw;  
...wholesome...  
Magic wave fresher than all's, yes y'all's.  
And on and on and on...  
Yes yes y'all, to the beat y'all, feel free y'all, it's unique  
y'all.  
What it do, what it is, what it be y'all?  
Fuck money, live up and get free y'all.  
Yes yes y'all to the beat y'all.  
Numerous and luminous ... in the reservoir.

Total Control...
