Block out the sun
Block out everyone
'Cause I'm down here

I need you
But we're through
And you won't come around, do you?

Tried to be cool, actin' a fool, waitin' around
For the phone but I don't hear a sound

Things don't change, they stay the same
If you let 'em
He's on my mind, 'bout all the time
Why can't I forget him?
Why can't I forget him?

The city streets
Won't let me sleep
'Cause everybody's watchin' me

Rather be dead than
Face what's ahead
Stranded out on the street

Tried to be cool, actin' a fool, waitin' around
For the phone but I don't hear a sound

Things don't change, they stay the same
If you let 'em
He's on my mind, 'bout all the time
Why can't I forget him?
Why can't I forget him?

Things don't change, they stay the same
If you let 'em
He's on my mind, 'bout all the time
Why can't I forget him?
Why can't I forget him?
