Next stop, I'm waiting for the train
Next stop, just looking in the rain
Next stop, wishing you goodbye
Next stop, tears in your eyes

'Till next time, oooh
'Till next time, oooh

35, isn't the same as it used to be, ahh
If I could listen a thing that you speak
35, isn't the same as it used to be, ahh
If I could listen a thing that you speak

'Till next time, oooh
'Till next time, oooh

Next stop, I'm waiting for the train
Next stop, just looking in the rain
Next stop, wishing you goodbye
Next stop, tears in your eyes

'Till next time, ahh
'Till next time, ahh
'Till next time, ahh
'Till next time, ahh
Ahh ahh
Ahh ahh
