

Blind Ego "Obsession"

Visit "[Obsession](#)" on MotoLyrics.com

Come on, feed my obsession
Sense my evil
Feel my passion
Sate my lust

Loose your odd inhibition
Maiden pureness
Enslaved and enchained
It's me you idolise

I keep looking for something on my own
Well that was never me

I go too far and I enjoy it

I feel disgusted and you should, too
I go too far, but I enjoy it
'Cause I feel not a thing

Let me tantalise you
On skinned knees you crawl

Let me desecrate you
Punish and hurt you
Dare to cry for the moon
