Our generation's gonna rot - rotten generation  
Before we even grow up - rotten generation  
Our generation's gonna rot - rotten generation  
Before we even grow up - pick it up

I don't know what I inhaled  
To make me rot this way  
I just know it's not my fault

They put it in the air for me  
We're all ignored  
And you don't realized it but  
The tie wearing maggots  
Are eating your head

My nose is running  
My eyes are itching  
My ears are bleeding
