"Awake"

Still we are sleeping
No one is fighting
No one is growing
Still we are sleeping
We have to be awake
Make your voice shine
Make your voice rise
Show them we're still alive

Still we are listening
But we're not screaming enough
So that someone can hear us
Still we're in the dark
We have to get up
Make us find a way
Make us find a light
Show them we're still alive

Still we are sleeping
No one is fighting
No one is growing
Still we are sleeping
We have to be awake
Make your voice shine
Make your voice rise
Show them we're still alive

Awake
We have to stay awake
Don't let them fool us anymore
Awake
We have to stay awake
Don't let them fool us anymore
