"Ghostmas Carol"

Visit "[Ghostmas Carol](#)" on [MotoLyrics.com](#)

Once upon a time
In winter lands of snow
There was a little town
Of fifty folks or so
But monsters were around
A million years ago
But they were not afraid
Cause they all have ghostmas day

On every other night
They never made a sound
When the singing birds went quiet
And the sun went down
Scary bats and pirates
Came up from the ground
But they told them go away
And don't come back
It's ghostmas day

Never wait a moment when you share your love
Below the shiney sparkley stars alight above
But what you feel inside is not just love persay
'Cause everyone is one on ghostmas day

So give a little gift to everyone you knew
And if you have a pumpkin they might like that too
And although you may scare them
They won't go away
Because we all
Love on ghostmas day
