"01) All Night Passion"

Visit "[01\) All Night Passion](#)" on MotoLyrics.com

I feel the chill
Don't let me freeze
Make that heat and passion
Down on my knees
I need you in ???
And if my heart should be
Always your sweet passion
That got to me

All night, all night passion
All night, all night passion
All night passion gets me through the day
All night, all night passion
All night, all night passion
All night passion gets me through the day

So close to my dreams
The passion and screams
Running on the town
Search for silver-screen
Fame may come or go
Money on a tree
Always your sweet passion
That got to me

REPEAT CHORUS

All night, all night
Gets me through the day
All night, all night
Gets me through the day
All night, all night
Gets me through the day
Gets me through the day
Gets me through the daaay!

Got to, got to, got to, got to!
(All night, all night passion)
