I always had a dream
About a perfect love for me
But I never thought Iâ'd see
The day when Iâ'd find you

Your tender heart of gold
Can melt the ice and warm the cold
Now everywhere that you may go
Iâ'm gonna follow behind you

Needed someone special in my life
To help me fill up every empty night
If I could always be right by your side
You will never be lonely
Youâ'll be my one and only forever

â'Cause baby I love you
And everything you do
Every single kiss
My passion comes alive when you touch me
Ooh, everything you do
Boy, you just canâ't miss
Where did you learn how to love me?
Ooh, I love you and everything you do

Everything you doâ...

My passion comes alive
There ainâ't no way I can disguise
The feelings that I have inside
â'Cause theyâ're drivinâ' me crazy

Iâ'll love you like nobody can
Iâ'm gonna make you understand
You ainâ't no temporary man
Youâ're my permanent baby

I love the things you whisper in my ear
All your deepest secrets just for me to hear
My fears of love completely disappear
And Iâ'll be givinâ' everything
Betting on the surest thing

I know, oh oh

I love you
And everything you do
Every single kiss
My passion comes alive when you touch me
Ooh, everything you do
Boy, you just can't miss
Where did you learn how to love me?
Ooh, I love you and everything you do

Whoa ho, everything you do

I keep wishin' on a star
That I could stay here in your arms
Boy I never could go far away from you
You're making every dream come true
'Cause of everything you do
Baby, I love you!

REPEAT CHORUS TO FADE
