Sometimes I watch you while you're sleeping baby
Sometimes I see you hold your pillow tight
Am I the one you're holding onto honey
Am I the one who's in your dreams at night?

You tell me there's no other baby
You tell me I'm the only one
I wish I knew for certain baby
Say you love me
Tell me honey

Do you dream about me
Baby when the night comes
When you close your eyes
Oh
Do you dream about me
When you dream of someone
When you close your eyes
Who do you see

Do you dream about me

Sometimes I know you really love me baby
It's so much clearer in the light of day
Your touch is always reassuring baby
You say the words I need to hear you say

You tell me there's no other baby
You tell me I'm the only one
I want to know for certain baby
Say you love me
Tell me honey

Do you dream about me
Baby when the night comes
When you close your eyes
Oh
Do you dream about me
When you dream of someone
When you close your eyes
Who do you see

Yeah
Do you dream about me

I wish I knew what's on your mind
When you're asleep
You're in my dreams every night
Do you dream
Do you dream
Do you dream
Do you dream about me

Ooh Yeah
Hey

Do you dream about me
Baby when the night comes
When you close your eyes
Ooh Ooh
Do you dream about me
When you dream of someone
When you close your eyes
Who do you see
Do you dream about me
Baby when the night comes
