Somewhere there's music  
How faint the tune  
Somewhere there's Heaven  
How high the moon

There is no moon above  
When love is far away too  
Till it comes true  
That you love me as I love you

Somewhere, yeah, there's Heaven  
It's where you are  
Somewhere there's music  
How near, how far?

The darkest night would shine  
If you would come to me soon  
Until you will, how still my heart  
How high the moon

Somewhere, yeah, there's music  
It's where you are  
Somewhere there's Heaven  
How near, how far?

The darkest night would shine  
If you would come to me too  
Till it comes true  
That you love me as I love you

Somewhere, yeah, there's Heaven  
It's where you are  
Somewhere there's music  
How near, how far?

The darkest night would shine  
If you would come to me soon  
Until you will, how still my heart  
How high the moon

'How High The Moon' is the name of the song  
'How High The Moon' though the words may be wrong

We're singin' it because you asked for it  
So we're swingin' it just for you

How high the moon, does it touch the stars?  
How high the moon, does it reach up to Mars?  
Though the words may be wrong to this song  
You ask me how high, high, high, high, high is the  
moon

Though the words may be wrong to this song  
We're askin' how high, high, high  
Hear your song now, 'How High The Moon'
