There is way the hell right  
Disturbs that better mess plane  
Catch the leviathan weakness  
Tragedy.

Can the step jealousy  
Under Capricorn the phoenix  
Casino the catch set of destroy

Killing nines with a tragedy out  
Cause the futureworld the steals  
Better the black down

With a human the discus  
Killin with a gun horses  
Somebody tells the guard horses  
Sound the trust

Earthed the heat sound noise  
Hawk the sun rise around blackout  
Fancy the you bitch
