

Blood Red Eagle

"Viking Power Rock And Roll"

Visit "[Viking Power Rock And Roll](#)" on MotoLyrics.com

I hear my people call me from across the sea
They say we are the true sons of victory
We don't care what you call us, we will carry on
If we get knocked down we will come back stronger
We follow the past and my peoples ways
Through this we set example and strive to see a new
day
Through all the bitter darkness we'll try and shed the
Light
This will be our song, when stand and fight

Music to save your soul, Viking power rock and roll

Forever our names uphold - Viking power rock and roll
Forever we come on strong - Viking power rock and roll
We'll come for you it won't be long - Viking power rock
And roll
Viking power rock and roll
Don't tell me I can't believe from where it was I came
200 years of separation, my blood is still the same
We don't want your thunder, this now you must know
We are paying tribute with the sounds of our own
