Atmosphere

The midnight sun it's really sun, it shines thru my  
eyes  
See the clouds, clouds that fly  
I wonder where's the moon  
They're so bright, bright and warm  
My clouds feel burn on May  
I hear the voice, warning voice, it's a...

Atmosphere is so high it's all around here  
Candle light almost dark, the place that love  
Atmosphere is so high it's all around here  
Candle light almost dark, the place that love

You give me thrills move is good  
Like you voice I can  
A little story, I am now, if castles full of ghosts  
There's no gold, and there's no warm  
Dusk forest full of trees  
I hear you voice, stilling voice...  
Atmosphere is so high it's all around here  
Candle light almost dark, the place that love  
Atmosphere is so high it's all around here  
Candle light almost dark, the place that love

The midnight sun, it's really sun, shines thru my  
mind  
See the clouds, clouds that fly  
Remember there's no moon

They're so bright, bright and warm  
My taste feels bunny sigh  
Something has changed; I wonder what it could be  
Where's the voice?

Atmosphere is so high it's all around here  
Candle light almost dark, the place that love  
Atmosphere is so high it's all around here  
Candle light almost dark, the place that love, my love
