Zombies, ghosts, vampires, demons, monsters,
psychopaths
Posseses my life since sweet innocence turned into
dark
A nightmare made of celluloid and pleased shudder
Creeps up my neck
I love this feeling and anticipation when pure evil will
Attack.
Bela Lugosi and his creatures of the night
Boris Karloff dismissed by his bride
Vincent Price and Yeah Christopher Lee
These people means more than just actors to me
Fucking Censorship drives me really insane
Ref.: Oh Yeah that's what I'm
I'm a dedicated Horormovie Fan
My life is like a scene full of faked blood and
Screamings
Horormovie Fan
I watched them all from my earliest age on
Gothic, Gore and Splatter Horormovie turns me on
I'm ready for Freddy and "The Saw is Family"
Pinhead, Chucky, Jason - Anti-Heroes sets me free
I hate the rating system and the FSK
Ref.: Oh Yeah that's what I'm
I'm a dedicated Horormovie Fan
My life is like a scene full of faked blood and
Screamings
Horormovie Fan
